EXPERIENCE

FullStack Developer Intern
V-Ex Tech Solution
Jan - Apr (2024)

As a Full Stack Web Developer, I played a key role in building an e-commerce website. My responsibilities included creating the frontend interface, developing backend functionalities, and designing an intuitive admin panel for streamlined management. this experience enhanced my proficiency in web development across various technologies.

PROJECTS

Scan Application

For university project created flutter based application that scan the barcode of the products and add products in cart for purchases.

Asistant

For university project in diploma created a basic android based personal assistant which can search using voice commands , make phone calls and open applications in mobiles.
